

At-Home Hiring Tests

Welcome to the Zefir Hiring test!

Please choose between either the Frontend or the Backend folder to begin your hiring test.

Each test is supposed to take about 1 hour to be completed.

Make sure you do a first initial commit and a commit for each question to help the reviewer's work.

Once done please add our developers to your repo so they can review it before the interview:

- Einsenhorn
- guillaumerybak
- gustavosophia
- jbilcke
- Nicolaspy84
